

## 2016 Temkin Customer Service Ratings Product Guide for Downloadable Datasets

### Information About Data Licensing

All datasets are delivered with a license for a specific number of people to access the file. The datasets **cannot** be resold or redistributed in any form or referenced outside of the purchaser’s organization without the prior written consent of Temkin Group.

### Warranty of Data

Temkin Group makes no representation or warranty of any kind, nature, or description, express or implied, with respect to the content, including, without limitation, any warranty of any kind or nature with respect to the accuracy of the content or any implied warranty of fitness for a particular purpose or any implied warranties arising from a course of dealing or a course of performance, and we hereby expressly disclaim the same.

### Industries Covered in Ratings

The datasets contain data from the 2016 Temkin Customer Service Ratings of 277 companies with at least 100 respondents from across 20 industries (see full list in this document):

- |                       |                              |                        |
|-----------------------|------------------------------|------------------------|
| • Airlines            | • Fast food chains           | • Rental car agencies  |
| • Appliance makers    | • Health plans               | • Retailers            |
| • Auto dealers        | • Hotel chains               | • Software companies   |
| • Banks               | • Insurance carriers         | • Supermarket chains   |
| • Computer makers     | • Internet service providers | • TV service providers |
| • Credit card issuers | • Investment firms           | • Utilities            |
|                       | • Parcel delivery services   | • Wireless carriers    |

### Description of Data Included in Datasets

Datasets are delivered in an Excel (.xls) file and contain details of consumer responses to the three questions that make up the Temkin Customer Service Ratings. Data are included for the 277 companies included in the ratings. This dataset also includes:

- Differences in responses across age groups for all 20 industries (data are not broken out by specific firm)
- Changes from 2015 Temkin Customer Service Ratings

Data were collected via an online survey of 10,000 U.S. consumers during January 2016. Temkin Group purchased access to a 3<sup>rd</sup> party panel of consumers. The distribution of survey respondents was managed to represent the U.S. population by establishing quotas that approximate U.S. Census percentages for age, income, gender, ethnicity, and location.

### Calculating the Temkin Customer Service Ratings

Temkin Group asks consumers to identify companies that they have interacted with during the previous 60 days. For a random subset of those companies, consumers are asked to rate companies as follows:

*Thinking back to your most recent customer service interaction with companies, how satisfied were you with the experience?*

Responses from 1= "very dissatisfied"  
to 7= "completely very satisfied"

For all companies with 100 or more consumer responses, we calculated the "net satisfaction" score. The ratings were calculated by taking the percentage of consumers that selected either 6 or 7 and subtracting the percentage of consumers that selected either 1, 2, or 3.

## About Temkin Ratings

Temkin Ratings is an offering of Temkin Group. The site provides access to data on how consumers rate their experiences with more than 100 companies and the associated loyalty of those consumers. The data can help organizations benchmark themselves within their industry and compare themselves to companies across other industries. The breakdown of data in consumer segments (age, income, education, gender, and ethnicity) provides companies with a deeper understanding of the link between customer experience and loyalty for their customers.

## About Temkin Group

Temkin Group is a customer experience research and consulting firm. We have one simple goal for our clients: increase customer loyalty by becoming more customer-centric. Any company can improve portions of its customer experience, but it takes more than a few superficial changes to create lasting differentiation. The Temkin Group combines customer experience thought leadership with a deep understanding of the dynamics of large organizations to help senior executives accelerate their customer experience results.

The company was founded based on four core beliefs:

### Customer experience drives loyalty.

Our research and work with clients has shown that interactions with customers influences how much business they'll do with you in the future and how often they recommend you to friends and colleagues.

### It's a journey, not a project.

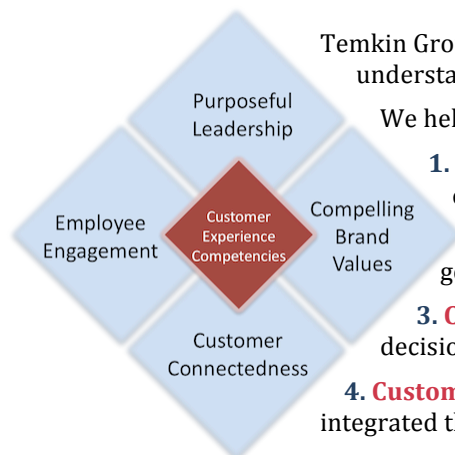

Building the capabilities to consistently delight customers doesn't happen overnight. Companies need to plan for a multi-year corporate change program.

### Improvement requires systemic change.

Companies can improve isolated customer interactions, but they can't gain competitive advantage until customer experience is embedded in their operating fabric.

### We can help you make a difference.

Transformation isn't easy, but leading your company to be more customer-centric is worth the effort. We help our clients accelerate their results and avoid many of the bumps along the way.

Temkin Group combines customer experience thought leadership with a deep understanding of the dynamics of large organizations to accelerate results.

We help firms build four competencies required for long-term success:

1. **Purposeful Leadership.** Does your executive team operate consistently from a clear, well-articulated set of values?
2. **Engaged Employees.** Are employees fully committed to the goals of your organization?
3. **Compelling Brand Values.** Are your brand attributes driving decisions about how you treat customers?
4. **Customer-connectedness.** Is customer feedback and insight deeply integrated throughout all of your internal processes?
